The School That SHINES!

What We Do

We help children become the best that they can be!

How?

By developing character and leadership skills so our students become incredible leaders and successful learners!

How can you help?

By becoming active partners and using the 7 Habits language when talking to your children about their daily activities and school experiences.

The Leader in Me is a school wide leadership development process for both students and staff members—of which **The 7 Habits of Highly Effective People** is a foundational piece.

It integrates timeless leadership principles into school culture, documenting improvements in:

- **academic scores**
- **soaring student self-confidence**
- **school culture**
- **reduced discipline problems**
- **greater student and staff engagement**
- **greater parent satisfaction**
